Terms

- I accept checks, Visa, MasterCard, Discover, American Express and PayPal™ Payments.
- Financing available (through PayPal Bill Me Later™). Please visit my Resources page for more info.
- Free estimates (except on troubleshooting work). I work by bid or on a time & materials basis.
- My service rate is \$139 for the first hour and \$40 per half-hour after that. Time begins at your door in the metro area.
- I normally do my own work, but will work with you on your project, or provide consultation.
- One-year warranty on materials and workmanship.

I was born and raised in Denver, but attended Community College in Northwest Iowa to study Electrical, and graduated from it in 1975. I worked in the Des Moines area for 3 ½ years and then moved back to Denver in 1978. Here I worked for electrical contractors doing residential and commercial wiring. In 1983 I became a master electrician and went into business for myself as Don's Electric, working for building contractors, as well as regular clients and customers. In 2003 I moved to the mountains near Fairplay and wired a number of custom homes. In 2006 I moved here to Aurora and have worked here and in the Metro Area ever since doing mostly residential and some commercial work. I'm a licensed and insured electrical contractor. Please call me at **303-364-3181** to set up an appointment. Thanks for visiting my website.
